WAI-ITI

Aroma Hop Little Flavour Bomb

A low alpha variety that works well on its own and with other hop varieties to produce both delicate and bigger styles.

Wai-iti is a true aroma hop that displays hints of lime overlaid with aromas of freshly picked peach and apricot.

Fresh peaches and apricot dominate in late additions and dry-hopping.

In early additions there is a pleasant lightly muted citrus character which allows the low co-humulone and high levels of farnesene to work their magic to create a smooth clean bitterness. The fresh peaches and apricot characters are at the forefront in late additions and dry-hopping. Awesome in single-hopped brews, in both Lagers and Ales, Wai-iti is a great choice anywhere where smooth bitterness, fruity aromas and flavors are what you're searching for.
